# LAZY LINER

FOR OVER 65 YEARS Buffalo Turbine has been utilizing turbine powered air for spraying, dusting, debris removal, dust suppression and odor control.

## PERFORMANCE

Buffalo Turbine Products meet or exceed our customers demanding expectations everyday.

## RELIABILITY

Designed and built for the harshest environments.

## VALUE

With 63+ years of manufacturing High Powered Blowers for spraying and debris blowing, Buffalo Turbine has the ability to strategically price our products to offer you the best value. Buffalo Turbine Debris Blowers generate both a high volume and velocity of air and is capable of performing the work of multiple walk behind or backpack style debris blowers resulting in an immediate reduction of labor costs. This will allow you to invest more of your money where it belongs... BACK INTO YOUR BUSINESS!

## THE BUFFALO TURBINE LAZY LINER ATTACHMENT

Buffalo Turbine has recognized an immediate need for products that are more efficient, effectively reduce labor costs and provide an excellent return on your investment when finishing and refinishing asphalt and paving surfaces. This attachment allows pavers, seal coaters, line strippers and asphalt maintenance companies to easily convert a Buffalo Turbine debris blower to a walk behind blower or attach to a line drive power unit.

## TESTIMONIES

"By using one Buffalo Turbine blower, we were able to put the sealer down much earlier in the day in comparison to the amount of time we spent using two or three 13 hp blowers. It worked quite well with the Lazy Liner and time saved was about 50%. We had the blower for 6 months now and are exceptionally happy with the extra productivity we gained by purchasing this wonderful piece of equipment. It is a Rolls Royce of blowers - a real workhorse especially when it is attached to the line driver." D & G Sealcoating and Striping, Inc. Fort Meyers, FL.

"As an airport specialty contractor in North and South Carolina, our need for a powerful and versatile debris blower is a necessary tool. Our purchase of Buffalo Turbine model KB3 has allowed us to significantly reduce our "clean up" time in and around the airport facilities. Great blower unit!" Pace Pavement Technologies Pickens, SC.
