CYCLONE² SQUARED

Since 1945 Buffalo Turbine's unique turbine design has provided superior performance and durability while being simple to operate and service. Buffalo Turbine Products are made in the USA with state of the art manufacturing equipment and procedures. This allows us to offer the best value while never compromising on Quality.

THE BEST JUST GOT BETTER

The new Cyclone² (Squared), like the Buffalo Turbine model KB Blower is an industry first and is now the most dominant debris blower available in this market. The twin turbine design powered by the whopping 40 hp Kohler Command Pro 40 Engine uses Buffalo Turbine's proprietary wireless system to control both the throttle and nozzles. Buffalo Turbine's New Cyclone² (Squared) has escalated debris removal to a new level and will complete jobs faster while paying for itself in time and labor savings.
